THE ALDERSON ACADEMY,

Alderson, W. Va.

That our Sons and our Daughters may be as Cornerstones, Polished after the Similitude of a Palace.

LOCATION.

The school is situated in Greenbrier County, on the main line of the Chesapeake and Ohio Railroad and on the banks of the Greenbrier River. It is in the midst of a purely agricultural community, which is noted for its intelligence, high moral principles and healthfulness. Alderson is a pure, clean town of about 1,500 inhabitants and is an ideal place, in location and character, for an academic school. The elevation is 1,800 feet above the sea level and the air is pure and bracing. The Academy occupies a most beautiful and healthful spot, with perfect natural drainage and the purest spring water.

FOUNDATION.

The Academy was organized in the summer of 1901 and is owned and managed by a joint stock company incorporated under the laws of West Virginia. The school is under Baptist control, but students of other denominations, or no denomination, are admitted upon the same terms and no proselyting is attempted. It is believed that there is an imperative need of a secondary school accessible to the Baptists of Southern West Virginia, and the Academy was established as an attempt to supply this need. The generous patronage which the school has received demonstrates the wisdom and perspicuity of its founders, while the results so far accomplished justify all the sacrifices made in its behalf. The school does not ask the patronage of the people upon any other ground than that of merit, and if it cannot offer satisfactory inducements it neither deserves nor asks their support.

EQUIPMENT.

The Academy owns three acres of ground most conveniently located and admirably adapted to its purpose. On this is situated a large three story structure containing twenty-five rooms, used for school rooms and dormitories. The school rooms are furnished with new individual desks of the modern type and with a full compliment of the usual apparatus. The students' rooms are neatly and comfortably furnished. The music department is supplied with pianos, clavier, an organ and all necessary instruments for first class work. A good beginning has been made toward a school library and it is constantly being enlarged. Through the annual Book Reception over six hundred volumes have been secured. In addition to this the Faculty and pupils have access to Prof. B. C. Alderson's private library of over a thousand volumes. A standard encyclopedia has been purchased by the Principal for the use of the students. The reading table is supplied with the local papers, city dailies, religious periodicals and some of the best magazines. Text books, stationary and drawing material are furnished by the school to students at actual cost.

AIMS.

The Academy aims to be what its name implies—purely a secondary school. It has no ambition to become a college and it grants no degrees. It conceives that it is fulfilling its mission only when it inspires in its students a longing for a higher education and sends them on to more advanced institutions. The school is run on the co-educational plan and it professes to prepare boys and girls to enter college or university. At the same time exceptional advantages are offered in music, both vocal and instrumental, this being regarded as an essential element of the modern students equipment. To those who wish it the first year of the usual college course will be given, thereby saving the student the greater expense of the first year at college with its increased temptations and dangers.

The fact is emphasized that this is a home school, the students and teachers living together as a family on terms of mutual intimacy and affection. Moreover, it is the aim to make the spirit and relations which characterize the family strongly and pervasively Christian. Without teaching sectarianism or preaching morality, it is sought to imbue the pupils with the idea that the spiritual life is the climax of educational effort and the highest fulfillment of man's destiny. As an aid in this direction the students are given practical

and helpful lectures by the various ministers and prominent educators of the town and state.

DISCIPLINE.

The student is not burdened with a multiplicity of rules. Pupils are required to conduct themselves as ladies and gentlemen under all circumstances and to be reasonably assiduous in their studies. It is the aim to develop them more by force of example and training than by hedging them around with rules and restrictions. Those who show an unwillingness to conform to the few plain requirements made will be promptly denied the privileges of the school.

The work of the day begins with divine worship in Scripture reading, song and prayer. The morning session begins at five minutes before nine and continues until half past twelve. The afternoon session continues from half past one until four.

All boarding pupils are required to spend the hours from seven to half past nine in the study hall under the supervision of one of the teachers. The work of each day is closed with prayer conducted by one of the teachers. At 10 o'clock all students are required to go to bed. Saturday evenings are spent by the pupil in social intercourse.

The lady students are not permitted to leave the grounds of the Academy without the consent of the Principal. They are not allowed to receive callers except by permission and all their correspondence is subject to approval.

Students are not allowed to purchase articles on credit, or to wear jewelery or clothing of others, or to borrow money without the permission of their parents.

Permission of parents and the consent of the Principal are required before the students are allowed to leave the Academy to make visits.

Students are expected to pay for all damages done to the property. Damages to the rooms will be charged to the occupants unless information is furnished showing that others are responsible. These few requirements will be strictly enforced.

DEPARTMENT OF MUSIC.

The course of study in pianoforte includes the different branches of notation, time, technic, analysis and expression. Special emphasis is placed upon the memorizing of compositions. In voice culture the most modern and approved methods are followed. Sight Reading, Harmony, Theory and History of music are taught. Occasion-

ally recitals are given and the students are accustomed to singing and playing before the public. Those who are qualified are admitted to the Academy Glee Club, which receives the very best instruction in chorus singing. It is the aim throughout this department to create a musical atmosphere and standard which will call for the best, and only the best, in music.

The department of music is not regarded by the Principal as merely an auxiliary to the work of the Academy, but, recognizing the highly refining and educating influence of music and its study, the school has provided thoroughly competent instruction in this connection and emphasizes the work as of equal importance with that of the academic department.

DEPARTMENT OF ELOCUTION.

A Three Years' Course.

There is always a demand for good readers. The power to interpret and express the thought of an author is a most desirable accomplishment. It will be the object of this department to teach the real art of expression and not imitation merely. To this end the course given will be both scientific and practical, including all the principles of Elocution and Physical Culture.

Instruction in this important branch has been given every year since the Academy was established.

MECHANICAL DRAWING.

Instruction is given by a competent teacher in free hand drawing. The course is adapted either to pupils pursuing the elements of the subject, or to those who wish to prepare to teach it.

ART.

Pupils who desire to pursue this branch of study will receive excellent instruction in the six departments of work—Charcoal, Crayon, Pastel, Oil, Tapestry, and China. The charges are very moderate.

COURSE OF STUDY.

PRIMARY.

FIRST AND SECOND YEARS.—Reading, Writing, Spelling, Arithmetic, Geography, English Lessons.

THIRD AND FOURTH YEARS.—Arithmetic, Grammar, Geography, History, Reading, Writing, Spelling.

PREPARATORY.

The Preparatory course covers two years' work, and provides thorough instructions in the English branches for students not qualified to enter the regular course of study:

ACADEMIC.

This department is primarily intended to prepare students for college, but young men and young women who do not wish to take a college course are here well fitted for teaching, business or life. It offers three courses—the Classical, Scientific and Normal. Each of these extending through four years. These three courses are identical through the Freshman and Sophomore, in order to give the student as long time as possible to note his own tastes and mental tendencies. The differentiation of the courses begins, therefore, with the Junior year.

Classical Course.

FIRST YEAR.—Geometry, Literature, History, Civil Government, Latin, Greek, or Modern Language (French or German.)

SECOND YEAR.—Trigonometry, Analytical Geometry, Literature and Composition, History, Latin, Greek or Modern Language.

Scientific Course.

Tuition in preparatory department.....	3 00 a month
Tuition in academic department.....	4 00 a month
Pianoforte.....	\$3 00 to 4 00 a month
Voice culture.....	3 00 to 4 00 a month
Glee Club.....	1 00 a month
Drawing.....	.50 a month
Use of piano for practice.....	.50 a month

Bills are payable in advance for each term, except that board may be paid at the beginning of each month if desired.

When there are two or more students from the same family, a discount of 10 per cent. will be allowed in tuition.

Ministerial students and children of ministers will be given special rates.

Students are charged to the end of the term in which they enter unless in case of sickness.

Laundry is not included in the prices given, but can be furnished at a cost of about \$1 a month for boys and \$1.50 for girls.

The Principal cannot advance money for books or laundry, a deposit should be made for this purpose at the beginning of the session, and should the whole amount deposited be not used a credit will be made for the balance.

Parents are urged NOT to supply pupils with a large amount of spending money.

The price of board has been advanced from eleven to twelve dollars per month, because of the prevailing high prices of the things which go to the furnishing of the table and because of the lighting of the rooms by electricity. We invite a comparison of this list of expenses with that of any other good boarding school.

SPECIAL.

Boarding pupils will provide themselves with towels, toilet articles, napkins and rings, one pair of sheets, one pair of pillow cases, one pair of blankets or a comfort, one white counterpane and one teaspoon, for use in their rooms.

Those who desire may provide window drapery, table-covers, rugs, etc., for the improvement of rooms.

Each pupil must be provided with over-shoes and umbrella.

Students clothing and property must be plainly marked with owner's name.

GENERAL INFORMATION.

Examinations are held and reports are sent out at the close of each term. The passing grade in all studies is 80 on a scale of 100. No honors, distinctions, or medals of any kind are offered in any department.

Certificates of graduation will be given to those who have completed the academic course. These certificates will admit students to most colleges and universities.

General literary work among the students is encouraged by every means possible. The pupils conduct three literary societies very successfully—the “Columbian Literary Society” by the young men and “The Athenian” by the young ladies. Meetings are held every Friday afternoon. The program consists of music, declamations, essays, orations, debates and parliamentary procedure. The two societies publish jointly each quarter “The Academician,” while “The News and Observer” presents the literary views of “The Athenian Society” weekly.

“The Alpha Society” is conducted by the preparatory pupils as a preparative for the other two.

Parents are urged to assist the Faculty in discouraging the use of tobacco among the pupils. Smoking not allowed on the grounds or about the building.

Boarding pupils are required to attend Sunday school and preaching every Sunday. They are permitted to attend the services at the church which is the choice of their parents, except that they are required to go with the principal on Sunday evenings. Baptist, Episcopalian, Methodist and Presbyterian churches are located in the town.

Athletics is encouraged by the Faculty, but is made distinctly subservient to the higher interests of the school. The girls’ basket-ball team plays only on the Academy grounds and the boys’ base-ball team is allowed to leave the Academy only on rare occasions and then under supervision of one of the teachers.

Hearty co-operation on the part of the patrons is invited, and correspondence of all who are interested in academic education the is solicited.

REMARKS.

Boarding pupils are not allowed to appear on the streets unless accompanied by one of the teachers.

Parents and others sending letters and packages to pupils should address them to the care of the "Alderson Academy."

Trashy literature is strictly forbidden in the building, and if any such is ever discovered it will be promptly burned.

All communications respecting the pupils should be made directly to the Principal in writing, and not through the pupils.

When a pupil enrolls it is understood that he will abide by all the rules of the school.

In order to discourage extravagant dress among the pupils the Academy prescribes for the young lady students a simple uniform for church and street, consisting of a black skirt and jacket and white waist for winter wear and plain white for spring and fall. No uniform is prescribed, of course, for daily wear.

Parents are earnestly requested not to interrupt the work of their children by allowing them to make unnecessary visits at their homes during the session.

In having Commencement dresses made for their daughters, parents will please remember that simple white muslin is much preferred and that silk is not allowed.

SCHOLARSHIPS.

Richmond College and Washington and Lee University each offer an annual scholarship to the student making the highest grade in completing his preparatory course.

The Bernard Carroll Alderson Scholarship, offered by the Principal, and awarded to the pupil making the highest grade through the years work.

TESTIMONIALS.

From Rev. J. P. Campbell Late Pastor Maysville Church, Kentucky.

Having personal knowledge of the teachers principally charged with the management of the Alderson Academy and a general knowledge of its splendid work and success during the years of its existence, I take pleasure in recommending it to the general public as a first class school, and especially to the Baptists of Southern West Virginia, as in every way worthy of their confidence, support and patronage. The religious atmosphere of the school and its surroundings is of an unusually high order.

From Rev. T. C. Johnson, Pastor First Baptist Church, Charleston, W. Va.

In the report on education made by Dr. T. C. Johnson at a recent session of the Kanawha Baptist Association is the following adopted resolution:

"That, so far as practicable, Baptists should patronize their own denominational schools of higher grade, such as Alderson Academy, Broadus Institute, Denison University and Richmond College; and for theological training the Crozer and Southern Baptist Seminaries. Especially would we commend Alderson Academy as most accessible to the young people of this section."

From J. H. Lacy (A. M. University of Virginia). Pastor First Presbyterian Church, Florence, Ala.

It gives me pleasure to add my testimony to that of others touching the zeal, efficiency and success with which Mrs. H. E. Stone has conducted the Synodical College situated in this place. Mrs. Stone is a woman who possesses masculine breadth and vigor of intellect, united to feminine vivacity and gentleness. Her scholarly attainments are of an unusually high order and her culture varied and thorough. There are few, if any, chairs in an ordinary college curriculum she could not fill with credit to herself, but in her chosen department of literature and its associated branches, she has few equals of either sex in the South.

From James C. Blasingame, President, Baptist Female University Raleigh, N. C

Mrs. H. E. Stone is in many respects the most remarkable woman I have ever known. She has held the chair of English Language and Literature in the Baptist Female University during this year and has proven herself a brilliant teacher, enthusiastic and full of love for the work. I have never known any teacher more enthusiastically praised and admired by her students; in fact, I have never known any one to accomplish with her students what Mrs. Stone has accomplished here.

Her attainments in her department are all that could be desired in any college in our country. I have been in the classes of university professors who did not have her grasp in treatment of subjects, and have heard her deliver classroom lectures that were unexcelled by anything I have heard from any other professor of English.

She has had large experience in teaching and bears testimonials of the highest character, which have been thoroughly sustained by her work in this institution.

I have written this in the interest of a woman who is worthy of any position she would ask.

J. C. BLASINGAME, Pres.

From H. A. Bolton, Esq., Indian Mills, W. Va.

MY DEAR MISS ALDERSON:—I wish I could find language to express my gratefulness to you in behalf of my two daughters who attended the last session of the A. A.; also wish I could say something as testimonial that would influence parents to put their sons and daughters in the care of one who would care for them as a mother cares for her children.

From Hon. J. D. Beckett, Clerk of the Circuit Court of Monroe County.

As a patron of the Alderson Academy, I can sincerely say, I think it an excellent school and heartily recommend it to the public as a Christian school of the highest type for girls and boys who are preparing for college or university.

From Rev. Geo. E. Davis, Clifton Forge, Va.

I have no hesitancy in saying that the Alderson Academy is a preparatory school unsurpassed by any in the State, and for many reasons I would recommend this school to young men and young ladies in preference to any other with which I am acquainted.

RICHMOND COLLEGE.

Richmond College has just celebrated its 75th anniversary with a greater endowment, larger faculty, better equipment, more departments of study, and more students than ever before in its long and honorable history. Among recent gifts is a subscription of \$150,000 by the General Education Board of New York, which is the largest grant made by this Board to any Southern institution.

Courses of study lead to degrees of B. A., B. S., M. A., LL. B. Particularly strong courses in Science and in Law. Special aid fund for young ministers from outside of Virginia. Scholarships for worthy students. Session begins Sept. 19.

Patronize a well established, growing college, where your son will be taught by men who are Christians as well as scholars, and who get acquainted with their students.
